---

Gary,

I have been contacted by a company different from Stone which has made an offer to remove/purchase the other metal structures located at the site with exception to Griggs Rd Administration bldg and the Wayland St office bldg. I personally do not want to get involved with any activities at the site post the EPA's departure, what is your suggestion and who do I contact representing Lubrizol's interest. I have not discussed the proposed activities with D. Askanase and prefer not to and I am sure that you fully understand.
